

Bolton Vision 2030 – Active, connected and prosperous.

A new relationship with people and communities.

Partners from across the borough are currently looking at how we can work better together to improve the lives of people and the offer to communities in Bolton. In order to do this, established partnerships and alliances are considering how they approach the future and new relationships are being developed across the public, private and voluntary and community sector in order to rise to the opportunity presented.

In order to drive this forward, a working group has been established and the first meeting of this strategic group will take place in June. The group will be Co-Chaired by Darren Knight (Bolton CVS) and Ged Gallagher (Bolton Council).

Co-design is key to all of this and the working group has been created and includes designated individuals from health, local authority, voluntary sector, housing and faith. Over the coming months, this group will be driving engagement borough-wide in order to develop options for what the future approaches, relationships and funding models for voluntary sector investment could look like.

All partners are committed to making this process as inclusive as possible and if you've got something you want to say to inform discussion, simply email (darren@boltoncvs.org.uk), telephone (01204 546 012) or arrange a meeting and we can ensure that your thoughts are included.
