Introduction

Bolton's Fund: Large Grants is to support Large charities.

In order to be eligible for a grant in the Large Grants fund your organisation must have **an income of more than £1million in the last full financial year.**

All projects that receive funding will need to demonstrate how their proposed project will address one or more of the Bolton's Fund priorities listed below. The priorities are guided by Bolton 2030 Vision priorities.

Examples of activities that will be considered for funding include costs associated with setting up a new activity or extending a project to reach more beneficiaries. A grant can be used to cover the costs involved in delivering community projects such as administration costs, project staffing and volunteer costs, transport costs (if lack of transport is a barrier to people accessing your offer) and essential equipment. See below for guidance.

Bolton's Fund Priorities
